## EXPERIENCE

### JUSTDIAL | SOFTWARE DEVELOPMENT ENGINEER

Feb 2022 – Current | Bangalore, India

- Collaborated with designers and backend developers to implement responsive and visually appealing user interfaces using React and Javascript.
- Engineered and sustained user-facing features within web applications, meticulously ensuring seamless cross-browser compatibility.
- Implemented performance optimization techniques, including web-vitals optimization, which yielded an impressive enhancement of nearly **30%** in the overall application speed.
- Assumed a pivotal role in the development and continuous enhancement of the business leads functionality, a critical component of the core business operations. As a result of these efforts, lead generation witnessed a remarkable surge of **40%**, accompanied by a significant increase of **25%** in daily user logins.

### THINKZONE INDIA | SOFTWARE DEVELOPER

Feb 2021 – Jan 2022 | Bhubaneswar, Odisha

- Led the development of a report website using React, providing users with insightful data visualizations and interactive reports.
- Developed reusable and modular components, ensuring efficient and maintainable codebase.
- Utilized Data Visualization libraries like Charts.js to create visually appealing and informative charts and graphs.
- Successfully migrated a comprehensive Ionic Angular application to React Native, accomplishing the transition with a focus on delivering superior-quality, high-performance user interfaces. Additionally, extended support for cross-platform mobile applications was established, ensuring a seamless and consistent user experience across various devices.

### EXPOSYS DATA LABS | SOFTWARE DEVELOPMENT INTERN

Dec 2020 – Jan 2021 | Hyderabad, Telangana

- Learned React and Javascript and participated in different activities and tasks, gained insight into software development practices and procedures.
- Created one Fully functional Language translator that can translate 30+ languages.
- Used IBM Watson language-translator API with Next.js, Node.js, and Express to develop this application and deployed in Vercel | **See live**

## PROJECTS

### THE MOVIE DATABASE CLONE | NEXT.JS & REACT.JS

Mar 2023 – Apr 2023

Engineered a clone of the TMDb official website utilizing the cutting-edge **Next.js** framework. Leveraged the latest React server components and advanced optimization techniques to ensure top-tier performance. Additionally, acquired proficiency in the latest SEO optimization technologies, contributing to a comprehensive skill set | **See live**
